IDEAL TECH STAFFING

Reimagine your Medical Office with the right healthcare support staff!

FRANCES
SENIOR MANAGER SINCE 2016

RONALD
CLINICAL SUPERVISOR SINCE 2021

ROBELLE
SERVICE REPRESENTATIVE SINCE 2023

Ideal Tech Staffing is proud to offer the medical industry's most complete and refined solution for recruitment, training, and supervision. In partnership with our experienced clinical leadership team, we help streamline the onboarding process and introduce your practice to a highly skilled team of remote support professionals. Our mission is simple: to deliver dependable, well-trained staff who integrate seamlessly into your workflows and practice culture.

We go beyond the limitations of traditional staffing models—not only eliminating the high costs associated with local recruiting, employee benefits, and frequent staff turnover, but also providing a higher caliber of remote support professionals, all without the burden of long-term commitments.

All of our agents report to work under one roof at our technical support headquarters in Cebu City (we have zero work-from-home employees). This centralized model allows clients to stay closely connected and actively engaged with their remote teams. As a client, you'll have the ability to collaborate directly with your remote staff, as well as monitor their daily performance.

You will be assigned a dedicated account supervisor who provides regular efficacy reports and maintains open communication with your practice administrator —we make sure your agents are consistently meeting clinical and administrative expectations from day one.

Allow us to handle your redundant, time-consuming administrative and clinical tasks, while you simply focus on taking care of your patients.

IDEAL TECH STAFFING
Call: 203-893-5951

Central Headquarters: 451 State Street, North Haven, CT, 06473
Technical Support Center: Archbishop Reyes Ave, Cebu City, 6000 Cebu, Phil

Unlike traditional medical staffing agencies, our remote specialists work in person at our state-of-the-art technical support offices. With biometric verifications and secure Wi-Fi servers in place, client data is safeguarded at all times.

Though your support staff operates remotely, you can have complete confidence knowing they are working from our advanced, secure facilities.

Practices that hire with Ideal Tech Staffing can reduce overhead costs by up to 50%, boost productivity, and offer providers and staff a significantly improved work-life balance.
